

Membership Update

December 2021

Dear Colleagues,

Executive Council As we head out to spend time with our family and friends, we are reminded of how important the work of the UCHC-AAUP is to creating a safe and healthy work environment for the UConn Health faculty. The Officers, the Executive Committee and Collective Bargaining Committee would like to extend best wishes to you and your family for a safe and happy holiday season.

Retirement Information We want to send a special thank you to those who will be working throughout the holidays. Thank you for your commitment and willingness to keep UConn Health patients safe.

Collective Bargaining Since January, the bargaining efforts of the AAUP Collective Bargaining Committee have brought a few small victories, but we are still far from agreement on some very important issues. We will continue to advocate for our colleagues on the issues important to our work life balance.

Holidays We have paused negotiations for the holidays and will resume after the New Year. There is still much to do, and we remain committed to keep fighting for fair wages and fair policies. We hope to bring good news after the New Year!

Kind regards,

Ibrahim, Ion and Laura
